< CURRENTLY />

CAREER BREAK & PROFESSIONAL DEVELOPMENT PRESENT

- Independently developing applications in React and TypeScript.
- Designing responsive user interfaces.
- Building reusable components.
- Implementing routing and forms.
- Integrating applications with REST APIs.
- Developing backend functionality with Node.js and Express, and working with PostgreSQL.

< INDEPENDENT PROJECTS />

01

TAROT APP

React · TypeScript · Node.js · Express · PostgreSQL

A self-designed and independently developed full-stack tarot application for drawing cards and generating AI interpretations, featuring multiple spreads, Polish and English language support, and a responsive interface.

02

CV Maker

React · TypeScript · Vite · styled-components

A multi-step CV builder featuring template selection, form validation, and a responsive document preview.

< EDUCATION />

2012-2015

BACHELOR'S DEGREE
IN COMPUTER SCIENCE

Cardinal Stefan Wyszyński
University in Warsaw

< STACK />

CORE STACK

React · TypeScript ·
JavaScript HTML · CSS
• styled components

BACKEND — BASICS

Node.js · Express
PostgreSQL · Drizzle ORM

TOOLS & LIBRARIES

Vite · TanStack · Router
TanStack Query · Axios
i18n · Git

TESTING

Jest · Cypress
Protractor · Cucumber
Postman

04

NASK - RESEARCH AND ACADEMIC COMPUTER NETWORK FEBRUARY 2020 - MAY 2021 FRONTEND DEVELOPER

- Built the frontend of an internal system from scratch using React, Redux, and TypeScript.
- Implemented views based on UI mockups.
- Created reusable components following Atomic Design principles.
- Integrated the interface with an undocumented REST API.
- Developed a mock API in Node.js and Express and generated test data with Faker.js.

03

PRAGMATISTS MAY 2018 - FEBRUARY 2020

QA ENGINEER | TESTY MANUALNE I AUTOMATYCZNE

- Expanded my QA Automation role to include frontend development in React and JavaScript.
- Improved responsiveness and user interface elements.
- Implemented features through pair programming and later independently.
- Contributed to an additional project built with React and TypeScript.
- Created automated tests using Cucumber, Cypress, and Protractor.
- Tested features and participated in code reviews.

02

PWPW - POLISH SECURITY PRINTING WORKS S.A. JANUARY 2018 - MAY 2018

QA ENGINEER | MANUAL & AUTOMATION TESTING

- Performed manual testing of web applications.
- Created test cases and reported defects in Jira.
- Tested REST APIs and integrations using Postman.
- Prepared and delivered Postman training for the team.
- Collaborated with developers and business analysts.

01

ACAISOFT JULY 2016 - DECEMBER 2018

QA ENGINEER | MANUAL & AUTOMATION TESTING

- Developed automated tests in JavaScript using Protractor and the Page Object Model.
- Expanded automated UI and integration test suites.
- Prepared test reports and documentation.
- Also performed manual testing.
